- [Section 13: Payment Protocol Clause 13](#section-13)
- [Section 14: Payment Protocol Clause 14](#section-14)
- [Section 15: Payment Protocol Clause 15](#section-15)
- [Section 16: Payment Protocol Clause 16](#section-16)
- [Section 17: Payment Protocol Clause 17](#section-17)
- [Section 18: Payment Protocol Clause 18](#section-18)
- [Section 19: Payment Protocol Clause 19](#section-19)
- [Section 20: Payment Protocol Clause 20](#section-20)
- [Section 21: Failed Transaction Auto-Reversal SLA Matrix](#section-21)
- [Section 22: Dispute Arbitration and Chargeback Workflow](#section-22)
- [Section 23: Payments & UPI FAQ Directory](#section-23)

Section 1: UPI Limits and 24-Hour Security Cooling Period

- **Standard Daily UPI Limit:** Up to ₹1,00,000 per calendar day across peer-to-peer (P2P) transfers.
- **Transaction Frequency Limit:** Maximum 20 outbound UPI payments per rolling 24-hour window.
- **First 24-Hour Cooling Period Security Restriction:**
 - Whenever a customer links a new bank account or resets their UPI PIN, NPCI security protocols enforce a strict cooling period.
 - Outward UPI payments are restricted to a maximum cumulative limit of ₹5,000 for the initial 24 hours following the PIN reset.
 - Full ₹1,00,000 daily limit automatically unlocks exactly 24 hours after PIN registration.

Section 2: Failed Transactions and Auto-Reversal Turnaround Time (TAT)

When money is debited from a customer's account but the transaction fails or the beneficiary does not receive the credit:

- **Mandatory Auto-Reversal TAT:** Under RBI and NPCI Harmonization of TAT guidelines, failed transactions must be automatically reversed and credited back to the customer's account within ****T+2 business days**** (where T is the transaction date).
- **Delayed Reversal Compensation:**
 - If the reversal takes longer than T+2 business days, FinBase compensates the customer **■100 per calendar day of delay**.
 - Compensation is calculated from the expiry of the T+2 window until the exact credit date, deposited directly into the customer's account without requiring any manual claim submission.

Section 3: Merchant Disputes, Chargebacks, and Provisional Credit

- Customers can dispute unauthorized, double, or incorrect merchant debits through the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days of transaction occurrence.
- For eligible merchant disputes, provisional credit is credited to the customer's savings account within 7 working days while bank arbitration proceeds.

Section 4: Payment Gateway Mechanics & Settlement Standards 4

Payment SOP FB-PAY-MEC-004 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 4.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 4.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 4.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 4.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 4.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 4.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 4.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-401	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-402	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-403	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-404	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 5: Payment Gateway Mechanics & Settlement Standards 5

Payment SOP FB-PAY-MEC-005 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 5.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 5.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 5.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 5.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 5.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 5.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 5.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-501	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-502	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-503	U69	NPCI Timeout	Processing payment	Check status in 10 mins

PAY-ERR-504	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee
-------------	-----	------------------------------	-----------------------	----------------------------

Section 6: Payment Gateway Mechanics & Settlement Standards 6

Payment SOP FB-PAY-MEC-006 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 6.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 6.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 6.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 6.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 6.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 6.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 6.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-601	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-602	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-603	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-604	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 7: Payment Gateway Mechanics & Settlement Standards 7

Payment SOP FB-PAY-MEC-007 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 7.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 7.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 7.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 7.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 7.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 7.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 7.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-701	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-702	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-703	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-704	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 8: Payment Gateway Mechanics & Settlement Standards 8

Payment SOP FB-PAY-MEC-008 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 8.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 8.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 8.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 8.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 8.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).

- Protocol 8.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 8.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-801	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-802	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-803	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-804	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 9: Payment Gateway Mechanics & Settlement Standards 9

Payment SOP FB-PAY-MEC-009 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 9.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 9.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 9.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 9.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 9.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 9.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 9.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-901	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-902	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-903	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-904	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 10: Payment Gateway Mechanics & Settlement Standards 10

Payment SOP FB-PAY-MEC-010 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 10.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 10.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 10.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 10.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 10.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 10.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 10.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1001	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1002	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1003	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1004	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 11: Payment Gateway Mechanics & Settlement Standards 11

Payment SOP FB-PAY-MEC-011 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 11.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 11.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 11.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 11.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 11.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 11.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 11.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1101	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1102	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1103	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1104	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 12: Payment Gateway Mechanics & Settlement Standards 12

Payment SOP FB-PAY-MEC-012 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 12.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 12.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 12.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 12.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 12.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 12.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 12.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1201	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1202	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1203	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1204	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 13: Payment Gateway Mechanics & Settlement Standards 13

Payment SOP FB-PAY-MEC-013 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 13.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 13.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 13.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 13.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 13.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 13.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 13.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1301	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up

PAY-ERR-1302	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1303	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1304	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 14: Payment Gateway Mechanics & Settlement Standards 14

Payment SOP FB-PAY-MEC-014 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 14.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 14.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 14.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 14.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 14.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 14.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 14.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1401	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1402	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1403	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1404	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 15: Payment Gateway Mechanics & Settlement Standards 15

Payment SOP FB-PAY-MEC-015 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 15.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 15.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 15.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 15.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 15.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 15.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 15.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1501	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1502	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1503	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1504	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 16: Payment Gateway Mechanics & Settlement Standards 16

Payment SOP FB-PAY-MEC-016 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 16.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 16.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 16.3: Mandate execution retry schedule for recurring OTT and SIP debits.

- Protocol 16.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 16.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 16.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 16.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1601	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1602	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1603	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1604	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 17: Payment Gateway Mechanics & Settlement Standards 17

Payment SOP FB-PAY-MEC-017 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 17.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 17.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 17.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 17.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 17.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 17.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 17.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1701	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1702	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1703	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1704	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 18: Payment Gateway Mechanics & Settlement Standards 18

Payment SOP FB-PAY-MEC-018 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes.

Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 18.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 18.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 18.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 18.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 18.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 18.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 18.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1801	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1802	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1803	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1804	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 19: Payment Gateway Mechanics & Settlement Standards 19

Payment SOP FB-PAY-MEC-019 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 19.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 19.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 19.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 19.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 19.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 19.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 19.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-1901	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-1902	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-1903	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-1904	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 20: Payment Gateway Mechanics & Settlement Standards 20

Payment SOP FB-PAY-MEC-020 details reconciliation across NPCI switches, partner bank sponsor gateways, and settlement nodes. Every electronic message packet is verified with cryptographic checksums, SHA-256 HMAC tokens, and multi-rail failover redundancy.

- Protocol 20.1: Auto-retry logic on temporary network timeout (HTTP 504 / U69 responses).
- Protocol 20.2: Merchant QR dynamic payload parsing and BharatQR compatibility.
- Protocol 20.3: Mandate execution retry schedule for recurring OTT and SIP debits.
- Protocol 20.4: P2M refund settlement batches and NEFT fallback mechanisms.
- Protocol 20.5: Regulatory reporting to RBI Central Payments Fraud Information Registry (CPFIR).
- Protocol 20.6: Offline UPI 123Pay voice payments reconciliation standards.
- Protocol 20.7: Cross-border UPI merchant transactions via NIPL international gateways.

Protocol ID	Response Code	System Meaning	Customer Message	Action
PAY-ERR-2001	U16	Risk Threshold Exceeded	Payment blocked for security	Prompt Biometric Step-up
PAY-ERR-2002	U30	Beneficiary Bank Offline	Beneficiary bank unreachable	Retry in 15 mins
PAY-ERR-2003	U69	NPCI Timeout	Processing payment	Check status in 10 mins
PAY-ERR-2004	U88	Mandate Insufficient Balance	Mandate debit bounced	Levies standard bounce fee

Section 21: Master Auto-Reversal SLA and Compensation Matrix

Transaction Scenario	Regulatory SLA	FinBase Standard SLA	Customer Compensation if Delayed
P2P UPI Failed Debit	T + 1 Day	T + 2 Business Days	■100 per day beyond T+2
P2M Merchant Online Debit Failed	T + 5 Days	T + 2 Business Days	■100 per day beyond T+5
ATM Cash Not Dispensed	T + 5 Days	T + 2 Business Days	■100 per day beyond T+5
IMPS Technical Reversal Failure	T + 1 Day	T + 1 Business Day	■100 per day beyond T+1
POS Card Transaction Failed	T + 5 Days	T + 3 Business Days	■100 per day beyond T+5
Recurring Mandate Auto-debit Error	T + 2 Days	T + 1 Business Day	Immediate refund + fee waiver

Section 23: Payments & UPI FAQ Directory (Items 1 - 100)

Q001: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 1)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-001].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0001.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q002: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 2)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ■100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-002].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0002.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q003: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 3)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ■5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-003].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0003.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q004: What is the standard daily transaction limit for UPI payments? (Payment incident case 4)

Under Section 1, the daily UPI limit is ■1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-004].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0004.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q005: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 5)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-005].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0005.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q006: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 6)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-006].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0006.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.

- Dispute turnaround time: 48 business hours.

Q007: Can I cancel a completed UPI payment? (Payment incident case 7)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-007].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0007.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q008: Why did my UPI payment fail with response code U69? (Payment incident case 8)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-008].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0008.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q009: Does FinBase charge any fee for UPI transactions? (Payment incident case 9)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-009].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0009.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q010: What is the maximum limit for a single UPI payment? (Payment incident case 10)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-010].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0010.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q011: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 11)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-011].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0011.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q012: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 12)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ₹100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-012].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0012.

- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q013: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 13)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ₹5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-013].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0013.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q014: What is the standard daily transaction limit for UPI payments? (Payment incident case 14)

Under Section 1, the daily UPI limit is ₹1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-014].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0014.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q015: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 15)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-015].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0015.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q016: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 16)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-016].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0016.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q017: Can I cancel a completed UPI payment? (Payment incident case 17)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-017].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0017.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q018: Why did my UPI payment fail with response code U69? (Payment incident case 18)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-018].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0018.

- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q019: Does FinBase charge any fee for UPI transactions? (Payment incident case 19)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-019].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0019.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q020: What is the maximum limit for a single UPI payment? (Payment incident case 20)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-020].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0020.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q021: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 21)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-021].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0021.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q022: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 22)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ₹100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-022].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0022.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q023: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 23)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ₹5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-023].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0023.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q024: What is the standard daily transaction limit for UPI payments? (Payment incident case 24)

Under Section 1, the daily UPI limit is ₹1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-024].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.

- Reconciliation code: Auto-reconciled under batch job PAY-REC-0024.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q025: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 25)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-025].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0025.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q026: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 26)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-026].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0026.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q027: Can I cancel a completed UPI payment? (Payment incident case 27)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-027].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0027.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q028: Why did my UPI payment fail with response code U69? (Payment incident case 28)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-028].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0028.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q029: Does FinBase charge any fee for UPI transactions? (Payment incident case 29)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-029].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0029.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q030: What is the maximum limit for a single UPI payment? (Payment incident case 30)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-030].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.

- Reconciliation code: Auto-reconciled under batch job PAY-REC-0030.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q031: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 31)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-031].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0031.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q032: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 32)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ■100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-032].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0032.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q033: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 33)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ■5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-033].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0033.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q034: What is the standard daily transaction limit for UPI payments? (Payment incident case 34)

Under Section 1, the daily UPI limit is ■1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-034].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0034.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q035: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 35)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-035].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0035.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q036: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 36)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-036].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0036.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q037: Can I cancel a completed UPI payment? (Payment incident case 37)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-037].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0037.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q038: Why did my UPI payment fail with response code U69? (Payment incident case 38)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-038].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0038.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q039: Does FinBase charge any fee for UPI transactions? (Payment incident case 39)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-039].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0039.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q040: What is the maximum limit for a single UPI payment? (Payment incident case 40)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-040].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0040.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q041: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 41)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-041].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0041.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q042: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 42)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ■100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-042].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0042.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q043: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 43)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ■5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-043].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0043.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q044: What is the standard daily transaction limit for UPI payments? (Payment incident case 44)

Under Section 1, the daily UPI limit is ■1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-044].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0044.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q045: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 45)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-045].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0045.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q046: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 46)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-046].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0046.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q047: Can I cancel a completed UPI payment? (Payment incident case 47)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-047].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0047.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q048: Why did my UPI payment fail with response code U69? (Payment incident case 48)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-048].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0048.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q049: Does FinBase charge any fee for UPI transactions? (Payment incident case 49)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-049].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0049.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q050: What is the maximum limit for a single UPI payment? (Payment incident case 50)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-050].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0050.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q051: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 51)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-051].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0051.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q052: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 52)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ₹100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-052].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0052.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q053: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 53)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ₹5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-053].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.

- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q058: Why did my UPI payment fail with response code U69? (Payment incident case 58)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-058].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0058.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q059: Does FinBase charge any fee for UPI transactions? (Payment incident case 59)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-059].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0059.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.

- Dispute turnaround time: 48 business hours.

Q060: What is the maximum limit for a single UPI payment? (Payment incident case 60)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-060].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0060.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q061: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 61)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-061].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0061.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q062: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 62)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ₹100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-062].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0062.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q063: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 63)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ₹5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-063].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0063.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q064: What is the standard daily transaction limit for UPI payments? (Payment incident case 64)

Under Section 1, the daily UPI limit is ₹1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-064].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0064.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q065: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 65)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-065].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0065.

- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q066: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 66)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-066].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0066.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q067: Can I cancel a completed UPI payment? (Payment incident case 67)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-067].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0067.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q068: Why did my UPI payment fail with response code U69? (Payment incident case 68)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-068].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0068.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q069: Does FinBase charge any fee for UPI transactions? (Payment incident case 69)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-069].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0069.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q070: What is the maximum limit for a single UPI payment? (Payment incident case 70)

Standard maximum limit per transaction is **₹1,00,000**, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-070].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0070.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q071: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 71)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-071].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.

- Reconciliation code: Auto-reconciled under batch job PAY-REC-0071.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q072: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 72)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ■100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-072].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0072.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q073: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 73)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ■5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-073].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0073.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q074: What is the standard daily transaction limit for UPI payments? (Payment incident case 74)

Under Section 1, the daily UPI limit is ■1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-074].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0074.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q075: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 75)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-075].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0075.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q076: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 76)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-076].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0076.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q077: Can I cancel a completed UPI payment? (Payment incident case 77)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-077].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.

- Reconciliation code: Auto-reconciled under batch job PAY-REC-0077.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q078: Why did my UPI payment fail with response code U69? (Payment incident case 78)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-078].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0078.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q079: Does FinBase charge any fee for UPI transactions? (Payment incident case 79)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-079].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0079.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q080: What is the maximum limit for a single UPI payment? (Payment incident case 80)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-080].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0080.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q081: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 81)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-081].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0081.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q082: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 82)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ₹100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-082].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0082.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q083: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 83)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ₹5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-083].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0083.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q084: What is the standard daily transaction limit for UPI payments? (Payment incident case 84)

Under Section 1, the daily UPI limit is **₹1,00,000** or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-084].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0084.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q085: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 85)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-085].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0085.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q086: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 86)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-086].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0086.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q087: Can I cancel a completed UPI payment? (Payment incident case 87)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-087].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.

- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q088: Why did my UPI payment fail with response code U69? (Payment incident case 88)

Response code U69 indicates a temporary network timeout between the switch and the beneficiary bank. Auto-reversal initiates within T+2 days if debited. [Reference Payments SOP Section: Clause PAY-SOP-088].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0088.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q089: Does FinBase charge any fee for UPI transactions? (Payment incident case 89)

No, FinBase does not charge any fee for peer-to-peer (P2P) or merchant (P2M) UPI transactions. [Reference Payments SOP Section: Clause PAY-SOP-089].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0089.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q090: What is the maximum limit for a single UPI payment? (Payment incident case 90)

Standard maximum limit per transaction is ₹1,00,000, subject to merchant category guidelines. [Reference Payments SOP Section: Clause PAY-SOP-090].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0090.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q091: My UPI transaction failed but money was deducted. When will I receive a refund? (Payment incident case 91)

Under Section 2, failed UPI debits are automatically credited back within T+2 business days under RBI and NPCI guidelines. [Reference Payments SOP Section: Clause PAY-SOP-091].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0091.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q092: What compensation is payable if my failed transaction refund is delayed? (Payment incident case 92)

Under Section 2, if the auto-reversal exceeds T+2 business days, FinBase compensates you ₹100 per calendar day of delay directly into your account. [Reference Payments SOP Section: Clause PAY-SOP-092].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0092.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q093: What is the UPI transfer limit during the first 24 hours of resetting my PIN? (Payment incident case 93)

Under Section 1, there is a security cooling period restricting outward UPI payments to a maximum of ₹5,000 for the first 24 hours after a PIN reset. [Reference Payments SOP Section: Clause PAY-SOP-093].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 4.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0093.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q094: What is the standard daily transaction limit for UPI payments? (Payment incident case 94)

Under Section 1, the daily UPI limit is ₹1,00,000 or a maximum of 20 outbound transactions per rolling 24-hour window. [Reference Payments SOP Section: Clause PAY-SOP-094].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 5.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0094.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q095: How do I raise a dispute for an unauthorized debit on my account? (Payment incident case 95)

Under Section 3, you can dispute the transaction directly in the FinBase App under 'Transaction Details -> Report Issue' within 3 calendar days. [Reference Payments SOP Section: Clause PAY-SOP-095].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 1.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0095.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q096: When do I get provisional credit for a disputed merchant transaction? (Payment incident case 96)

Under Section 3, eligible disputed merchant transactions receive provisional credit within 7 business days while bank arbitration proceeds. [Reference Payments SOP Section: Clause PAY-SOP-096].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 2.
- Reconciliation code: Auto-reconciled under batch job PAY-REC-0096.
- Verification reference: NPCI Universal Transaction Reference (UTR) 12-digit key.
- Dispute turnaround time: 48 business hours.

Q097: Can I cancel a completed UPI payment? (Payment incident case 97)

No. UPI transactions are instant and irrevocable once completed. If sent to the wrong person, contact the recipient or file a wrong credit dispute. [Reference Payments SOP Section: Clause PAY-SOP-097].

- Switch Route: NPCI UPI 2.0 Central Clearing Switch node 3.
