Section 1: Introduction and Card Tiers Overview

FinBase issues credit cards on the Visa and RuPay payment networks. This handbook outlines the contractual terms, charges, credit limits, grace periods, and reward structures governing all card variants.

1.1 FinBase Neo Credit Card (Lifetime Free)

- **Joining & Renewal Fee:** Lifetime Free (Zero joining fee, Zero annual fee forever).
- **Rewards & Cashback:** Flat 1.0% unlimited cashback on all eligible retail POS and online e-commerce transactions.
- **Exclusions:** Fuel purchases, wallet reload transactions, cash withdrawals, and government utility payments do not earn cashback.
- **Airport Lounge Access:** No complimentary airport lounge access is included on the Neo tier.

- **Foreign Currency Markup:** 3.50% on all cross-border and foreign currency transactions.

1.2 FinBase Luxe Credit Card (Lifestyle & Travel)

- **Joining & Annual Fee:** ■999 + 18% GST.
- **Annual Fee Waiver:** The annual fee for subsequent years is 100% waived if the total annual card spend exceeds ■1,20,000 in the preceding membership year.
- **Rewards:** 2.0% cashback on online e-commerce transactions, 1.0% cashback on in-store offline POS swipes.
- **Airport Lounge Access:** 4 complimentary domestic airport lounge visits per calendar year (strictly capped at 1 visit per calendar quarter).
- **Foreign Currency Markup Fee:** Reduced markup of 1.50% on all international and foreign currency payments (industry standard is 3.50%).

1.3 FinBase Metal Credit Card (Ultra-Premium)

- **Joining & Annual Fee:** ■4,999 + 18% GST.
- **Annual Fee Waiver:** Waived upon crossing ■5,00,000 in annual retail spending.
- **Rewards:** 3.5% reward points on flights, hotels, fine dining, and international transactions; 1.5% on other retail categories.
- **Lounge Privileges:** Unlimited complimentary domestic airport lounge access for primary cardholder, plus 4 complimentary international lounge visits per calendar year via Priority Pass.
- **Foreign Currency Markup Fee:** Industry-leading 1.00% markup on international transactions.
- **Concierge:** 24/7 global lifestyle and travel concierge desk.

Section 2: Credit Limit Assignment and Enhancement

- Initial credit limits are determined based on bureau score, verifiable income, and existing credit lines.
- **Automated Limit Enhancement:** Evaluated every 6 months for accounts demonstrating 100% on-time minimum payment track record and credit utilization maintained below 40%.
- **Temporary Limit Enhancements:** Available for festive or medical emergencies through in-app approval for up to 30 days.

Section 3: Billing Cycle, Grace Period, and Minimum Amount Due (MAD)

3.1 Interest-Free Grace Period

Cardholders enjoy an interest-free credit grace period ranging between 45 to 50 days, depending on transaction date.

The grace period is applicable ONLY if the Total Amount Due from the previous billing cycle was settled in full by the due date.

3.2 Minimum Amount Due (MAD) Calculation

- MAD is calculated as 5% of the total outstanding balance, or ■250 (whichever is higher), plus all applicable taxes, EMI installments, and overdue amounts from prior cycles.
- Paying only the Minimum Amount Due keeps the account in good standing with credit bureaus but attracts finance charges on the remaining unpaid balance.

3.3 Finance Charges and Annual Percentage Rate (APR)

- Unpaid statement balances attract interest at 3.49% per month (effective 41.88% per annum), calculated from transaction date until full realization.
- Cash advances from ATMs do not enjoy any grace period; interest accrues from the timestamp of cash withdrawal at 3.49% per month.

Section 4: Credit Card Processing Rules & Security Standards 4

FinBase Credit Card Operations Standard FB-CCO-004 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 4.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.

- Rule 4.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 4.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 4.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 4.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 4.6: Virtual add-on card issuance limits for family members.
- Rule 4.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-401	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-402	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-403	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-404	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 5: Credit Card Processing Rules & Security Standards 5

FinBase Credit Card Operations Standard FB-CCO-005 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 5.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 5.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 5.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 5.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 5.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 5.6: Virtual add-on card issuance limits for family members.
- Rule 5.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-501	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-502	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-503	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-504	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 6: Credit Card Processing Rules & Security Standards 6

FinBase Credit Card Operations Standard FB-CCO-006 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 6.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 6.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 6.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 6.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 6.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 6.6: Virtual add-on card issuance limits for family members.
- Rule 6.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-601	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-602	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt

CC-SEC-603	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-604	ATM Cash	Daily cash withdrawal cap	■25,000	PIN block after 3 invalid attempts

Section 7: Credit Card Processing Rules & Security Standards 7

FinBase Credit Card Operations Standard FB-CCO-007 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 7.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.
- Rule 7.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 7.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 7.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 7.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 7.6: Virtual add-on card issuance limits for family members.
- Rule 7.7: EMI conversion interest rates starting from 14% p.a. for transactions above ■2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-701	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-702	High Value	Single transaction size	> ■1,00,000	App Biometric Push Prompt
CC-SEC-703	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-704	ATM Cash	Daily cash withdrawal cap	■25,000	PIN block after 3 invalid attempts

Section 8: Credit Card Processing Rules & Security Standards 8

FinBase Credit Card Operations Standard FB-CCO-008 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 8.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.
- Rule 8.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 8.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 8.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 8.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 8.6: Virtual add-on card issuance limits for family members.
- Rule 8.7: EMI conversion interest rates starting from 14% p.a. for transactions above ■2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-801	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-802	High Value	Single transaction size	> ■1,00,000	App Biometric Push Prompt
CC-SEC-803	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-804	ATM Cash	Daily cash withdrawal cap	■25,000	PIN block after 3 invalid attempts

Section 9: Credit Card Processing Rules & Security Standards 9

FinBase Credit Card Operations Standard FB-CCO-009 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 9.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.
- Rule 9.2: Mandatory dynamic CVV generation for online merchant tokenization.

- Rule 9.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 9.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 9.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 9.6: Virtual add-on card issuance limits for family members.
- Rule 9.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-901	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-902	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-903	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-904	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 10: Credit Card Processing Rules & Security Standards 10

FinBase Credit Card Operations Standard FB-CCO-010 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 10.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 10.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 10.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 10.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 10.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 10.6: Virtual add-on card issuance limits for family members.
- Rule 10.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1001	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1002	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-1003	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1004	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 11: Credit Card Processing Rules & Security Standards 11

FinBase Credit Card Operations Standard FB-CCO-011 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 11.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 11.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 11.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 11.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 11.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 11.6: Virtual add-on card issuance limits for family members.
- Rule 11.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1101	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1102	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-1103	Cross Border	International online attempt	Active toggle	Auto-decline if disabled

CC-SEC-1104	ATM Cash	Daily cash withdrawal cap	■25,000	PIN block after 3 invalid attempts
-------------	----------	---------------------------	---------	------------------------------------

Section 12: Credit Card Processing Rules & Security Standards 12

FinBase Credit Card Operations Standard FB-CCO-012 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 12.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.
- Rule 12.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 12.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 12.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 12.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 12.6: Virtual add-on card issuance limits for family members.
- Rule 12.7: EMI conversion interest rates starting from 14% p.a. for transactions above ■2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1201	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1202	High Value	Single transaction size	> ■1,00,000	App Biometric Push Prompt
CC-SEC-1203	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1204	ATM Cash	Daily cash withdrawal cap	■25,000	PIN block after 3 invalid attempts

Section 13: Credit Card Processing Rules & Security Standards 13

FinBase Credit Card Operations Standard FB-CCO-013 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 13.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.
- Rule 13.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 13.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 13.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 13.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 13.6: Virtual add-on card issuance limits for family members.
- Rule 13.7: EMI conversion interest rates starting from 14% p.a. for transactions above ■2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1301	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1302	High Value	Single transaction size	> ■1,00,000	App Biometric Push Prompt
CC-SEC-1303	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1304	ATM Cash	Daily cash withdrawal cap	■25,000	PIN block after 3 invalid attempts

Section 14: Credit Card Processing Rules & Security Standards 14

FinBase Credit Card Operations Standard FB-CCO-014 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 14.1: Contactless tap-to-pay transaction limits without PIN capped at ■5,000 per transaction.
- Rule 14.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 14.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.

- Rule 14.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 14.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 14.6: Virtual add-on card issuance limits for family members.
- Rule 14.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1401	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1402	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-1403	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1404	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 15: Credit Card Processing Rules & Security Standards 15

FinBase Credit Card Operations Standard FB-CCO-015 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 15.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 15.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 15.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 15.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 15.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 15.6: Virtual add-on card issuance limits for family members.
- Rule 15.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1501	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1502	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-1503	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1504	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 16: Credit Card Processing Rules & Security Standards 16

FinBase Credit Card Operations Standard FB-CCO-016 outlines tokenization, fraud scoring, and chargeback protocols.

Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 16.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 16.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 16.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 16.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 16.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 16.6: Virtual add-on card issuance limits for family members.
- Rule 16.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1601	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1602	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-1603	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1604	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 17: Credit Card Processing Rules & Security Standards 17

- FinBase Credit Card Operations Standard FB-CCO-017 outlines tokenization, fraud scoring, and chargeback protocols.
- Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.
- Rule 17.1: Contactless tap-to-pay transaction limits without PIN capped at █5,000 per transaction.
 - Rule 17.2: Mandatory dynamic CVV generation for online merchant tokenization.
 - Rule 17.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
 - Rule 17.4: Fraud alert telemetry and automatic risk step-up authentication.
 - Rule 17.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
 - Rule 17.6: Virtual add-on card issuance limits for family members.
 - Rule 17.7: EMI conversion interest rates starting from 14% p.a. for transactions above █2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1701	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1702	High Value	Single transaction size	> █1,00,000	App Biometric Push Prompt
CC-SEC-1703	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1704	ATM Cash	Daily cash withdrawal cap	█25,000	PIN block after 3 invalid attempts

Section 18: Credit Card Processing Rules & Security Standards 18

- FinBase Credit Card Operations Standard FB-CCO-018 outlines tokenization, fraud scoring, and chargeback protocols.
- Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.
- Rule 18.1: Contactless tap-to-pay transaction limits without PIN capped at █5,000 per transaction.
 - Rule 18.2: Mandatory dynamic CVV generation for online merchant tokenization.
 - Rule 18.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
 - Rule 18.4: Fraud alert telemetry and automatic risk step-up authentication.
 - Rule 18.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
 - Rule 18.6: Virtual add-on card issuance limits for family members.
 - Rule 18.7: EMI conversion interest rates starting from 14% p.a. for transactions above █2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1801	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1802	High Value	Single transaction size	> █1,00,000	App Biometric Push Prompt
CC-SEC-1803	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1804	ATM Cash	Daily cash withdrawal cap	█25,000	PIN block after 3 invalid attempts

Section 19: Credit Card Processing Rules & Security Standards 19

- FinBase Credit Card Operations Standard FB-CCO-019 outlines tokenization, fraud scoring, and chargeback protocols.
- Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.
- Rule 19.1: Contactless tap-to-pay transaction limits without PIN capped at █5,000 per transaction.
 - Rule 19.2: Mandatory dynamic CVV generation for online merchant tokenization.
 - Rule 19.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
 - Rule 19.4: Fraud alert telemetry and automatic risk step-up authentication.
 - Rule 19.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.

- Rule 19.6: Virtual add-on card issuance limits for family members.
- Rule 19.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-1901	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-1902	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-1903	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-1904	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 20: Credit Card Processing Rules & Security Standards 20

FinBase Credit Card Operations Standard FB-CCO-020 outlines tokenization, fraud scoring, and chargeback protocols. Every transaction is analyzed in real-time by the neural risk engine for geographic anomalies, velocity bursts, and merchant category risks.

- Rule 20.1: Contactless tap-to-pay transaction limits without PIN capped at ₹5,000 per transaction.
- Rule 20.2: Mandatory dynamic CVV generation for online merchant tokenization.
- Rule 20.3: Dynamic currency conversion (DCC) warnings and merchant markup transparency.
- Rule 20.4: Fraud alert telemetry and automatic risk step-up authentication.
- Rule 20.5: Merchant dispute filing workflows under Visa and RuPay chargeback rules.
- Rule 20.6: Virtual add-on card issuance limits for family members.
- Rule 20.7: EMI conversion interest rates starting from 14% p.a. for transactions above ₹2,500.

Rule ID	Category	Parameter Check	Standard Limit	Risk Action
CC-SEC-2001	Velocity	Max transactions per hour	5 swipes	SMS Verification Step-up
CC-SEC-2002	High Value	Single transaction size	> ₹1,00,000	App Biometric Push Prompt
CC-SEC-2003	Cross Border	International online attempt	Active toggle	Auto-decline if disabled
CC-SEC-2004	ATM Cash	Daily cash withdrawal cap	₹25,000	PIN block after 3 invalid attempts

Section 21: Master Schedule of Credit Card Fees and Penalties

Fee Item	FinBase Neo	FinBase Luxe	FinBase Metal
Annual Membership Fee	₹0 (Lifetime Free)	₹999 + GST (Waived at ₹1.2L spend)	₹4,999 + GST (Waived at ₹5L spend)
Monthly Finance Charge (APR)	3.49% per month (41.88% p.a.)	3.49% per month (41.88% p.a.)	3.49% per month (41.88% p.a.)
Foreign Currency Markup Fee	3.50% + GST	1.50% + GST	1.00% + GST
Cash Advance Transaction Fee	2.5% of amount (Min ₹300)	2.5% of amount (Min ₹300)	2.5% of amount (Min ₹300)
Late Payment Fee (< ₹500 balance)	₹0	₹0	₹0
Late Payment Fee (₹501 - ₹5,000)	₹400 + GST	₹400 + GST	₹400 + GST
Late Payment Fee (₹5,001 - ₹10,000)	₹750 + GST	₹750 + GST	₹750 + GST

- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q014: How many complimentary airport lounge visits come with the FinBase Luxe card? (Card operational case 14)

Under Section 1.2, the Luxe card provides 4 complimentary domestic airport lounge visits per calendar year, capped at 1 visit per calendar quarter. [Reference Cardholder Agreement Section: Clause CC-RULE-014].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0014.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q015: What is the interest rate charged on unpaid credit card bills? (Card operational case 15)

Under Section 3.3, finance charges are levied at 3.49% per month (effective 41.88% per annum) on the unpaid balance. [Reference Cardholder Agreement Section: Clause CC-RULE-015].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0015.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q016: What is the foreign currency markup fee on the FinBase Metal card? (Card operational case 16)

Under Section 1.3, the FinBase Metal card features an industry-leading foreign currency markup of only 1.00%. [Reference Cardholder Agreement Section: Clause CC-RULE-016].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0016.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q017: Can I freeze my credit card temporarily if I lose it? (Card operational case 17)

Yes, cardholders can instantly freeze or unfreeze their card at any time via FinBase App -> Cards -> Controls. [Reference Cardholder Agreement Section: Clause CC-RULE-017].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0017.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q018: How is the Minimum Amount Due (MAD) calculated? (Card operational case 18)

Under Section 3.2, MAD is 5% of total outstanding balance or ₹250 (whichever is greater), plus all taxes, EMI installments, and past overdue amounts. [Reference Cardholder Agreement Section: Clause CC-RULE-018].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0018.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q019: What is the cash withdrawal fee from ATMs using a FinBase credit card? (Card operational case 19)

Under Section 21, ATM cash advance incurs a transaction fee of 2.5% of the withdrawn amount (minimum ■300), plus immediate interest at 3.49% per month. [Reference Cardholder Agreement Section: Clause CC-RULE-019].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0019.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q020: When is credit limit enhancement reviewed? (Card operational case 20)

Under Section 2, credit limit enhancement eligibility is reviewed automatically every 6 months based on payment history and low utilization. [Reference Cardholder Agreement Section: Clause CC-RULE-020].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0020.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q021: What is the foreign currency markup on the FinBase Luxe card? (Card operational case 21)

Under Section 1.2, the foreign currency markup fee on the FinBase Luxe Credit Card is 1.50% on all international transactions. [Reference Cardholder Agreement Section: Clause CC-RULE-021].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0021.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q022: What is the annual fee for the FinBase Luxe card and how can I get it waived? (Card operational case 22)

The annual fee is ■999 + 18% GST. As per Section 1.2, it is 100% waived if your total annual spends exceed ■1,20,000 in the previous calendar year. [Reference Cardholder Agreement Section: Clause CC-RULE-022].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0022.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q023: Does the FinBase Neo card have any annual or joining fees? (Card operational case 23)

No. Under Section 1.1, the FinBase Neo Credit Card is 100% Lifetime Free with zero joining and zero renewal fees. [Reference Cardholder Agreement Section: Clause CC-RULE-023].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0023.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.

Q024: How many complimentary airport lounge visits come with the FinBase Luxe card? (Card operational case 24)

Under Section 1.2, the Luxe card provides 4 complimentary domestic airport lounge visits per calendar year, capped at 1 visit per calendar quarter. [Reference Cardholder Agreement Section: Clause CC-RULE-024].

- Tier Scope: Applicable to Neo, Luxe, and Metal cardholders under standard agreement.
- Billing Engine Code: Verified under automated billing script CC-BILL-0024.
- Customer notification: Communicated via monthly e-statement and instant transaction SMS alert.
- Dispute window: Cardholders may report billing discrepancies within 30 days of statement generation.
